J. D. Orear, who has been organizing the enterprise and who has inter-ested Mr. Baumhoff, of St. Louis, in the matter explained the plan to those

It is the intention to erect an eletric, standard guage line from Mexico to Paris, a distance of about 25 miles. The cost will be \$350,000 for building, equipping and placing the road in full

Mr. Baumhoff stands willing to take

days, it being the plan for those who desire to invest to make arrangement of the money upon the delivery of the stock after the road has been in operation for 30 days.

It was stated at the meeting Monday night that one of the trunk lines passing through Mexico had already agreed to enter an arrangement to handle freight delivered at Mexico by the electric road from any point on the proposed line to Chicago or St. Louis the present freight rates in force from Mexico to those points, giving the electric road "one-third of the than of the present freight rates in force from Mexico to those points, giving the electric road "one-third of the haul," or, in other words, allowing the state of the present freight delivered at Mexico by the present freight rates in force from Mexico to those points, giving the electric road "one-third of the haul," or, in other words, allowing the state of the present freight and the state of the force of the fish were given away to friends of the fishing party but not to bribe them to tell the truth.

Light frosts were reported all along the line of the Fremont, Elkhorn and Missouri valley, but they were not beavy enough to do any serious damond the fish was weighed but we are unable to find who weighed it. The facts as published in this article were furnished by W. D. Thomas, of the Fulton Sea, and were vouched for by Secretary Adocek and C. Atkinson, all of Fulton.

In order to be atsolutely correct the Lapous submitted the above to Circuit Clerk Jameson, J. R. Smith, Jesse Maughs and John Houchens, all gentlemen of known veracity and resi-. Bragg's dental office is over haul," or, in other words, allowing one-third of the freight rate. dall & Wilkins' store, northeas

It was also stated that, posoal from the new banks near Paris sould be laid down in this city at 60 actories nothing would.

The possibilities of benefit eminat

ing from the proposed route are almost endless. It would make a big canning factory more possible; it would increase farm values within two miles of the road from 15 to 100 per cent.; it would make a mid-termitus park a paying investment; it would place Paris nearly 50 miles nearer the great Major English Volunteers. Professor gentlemen mentioned deponent sayeth modern Languages. London; Graduate resident student France, Germany and Spain; to fish stories, regarding the other gentlemen mentioned deponent sayeth modern. ing from the proposed route are almost endless. It would make a big canning oing to buy a buggy? Don't fal ectric roads as a precedent, be a big coney-maker for the stockholders.
